

Building the Future of Healthcare, Discovery and Innovation

Integrated Solutions for Specialized Environments.

At Horwitz, we understand the critical connection between healthcare and the built environment. Our integrated mechanical, electrical, plumbing, automation, and service solutions ensure the longevity of your facility—safeguarding patient health, advancing research, and enabling innovation. From hospitals and surgical suites to research laboratories, certified cleanrooms, pharmaceutical and medical device manufacturing, and bioscience facilities, we create high-performance environments that optimize operations and drive discovery.

**HORWITZ**

Together, anything is possible.

Our Specialized Capabilities Include:

- In-House Design + Engineering
- Design-Build + Design Assist Delivery
- Targeted + Customized Building Automation System Solutions
- Pre-Functional Testing
- Piping Fabrication
- High Purity Stainless Steel Piping
- Contaminant Control Systems
- HEPA and ULPA Filtration
- High Purity Water Systems (PVDF, Polypropylene, PVC, Stainless Steel)
- Dual Containment Chemical/ Gas Piping with Leak Detection
- Process Piping
- Process Gas Systems
- Backup Power Solutions, Generators, and UPS Solutions for Uninterrupted Operations
- Energy-Efficient Indoor and Outdoor Lighting Solutions
- Installation and Maintenance of Transformers, Switchgear, and Panelboards
- Standard, Medium and High Voltage Power Distribution Systems
- Building Automation and Controls
- Energy Efficiency Upgrades

Proven Experience

We partner with clients in healthcare, biotech, pharmaceuticals, higher-education, and science-based industries to provide optimal mechanical and electrical systems that focus on quality, cost and reliability. Following is a glimpse at some of our notable project experience.

- North Memorial Health - Robbinsdale Hospital
- Children's Hospitals & Clinics of Minnesota
- Minneapolis VA Healthcare System
- Regency Hospital
- Hutchinson Health
- Summit Orthopedics
- Twin Cities Orthopedics
- University of Minnesota, Cancer Cardio Research Facility
- University of Minnesota, McGuire Translational Research Facility
- Wallin Medical Biosciences Building
- Upsher-Smith Laboratories
- Kindeva Research & Development Laboratory
- Medtronic Polymers Cleanroom
- Lifecore Biomedical Aseptic Processing Expansion
- Boston Scientific
- Olympus Surgical Technologies of America

Protect Your Investment

Ready to ensure long-term reliability for your facility? Connect with the Horwitz team to begin developing a preventative maintenance plan tailored to your needs. Secure peace of mind with proactive maintenance today!
